Sosiaali- ja terveyspalvelujen uudistaminen ikääntyvässä Euroopassa

10.-11.6.2015 | Aalto-yliopisto, Espoo

Tervetuloa keskustelemaan Aalto-yliopiston Sotera-instituutin, European Health Property Network:in sekä Kuntaliiton ja Sairaanhoitopiirien johtajat ry:n järjestämään kansainväliseen ajankohtaisseminaarin ***"Flipped Care - Integrated Social and Health Care":***

More with less - Enemmän vähemmällä

Euroopassa ovat 40-luvun lopun isot ikäluokat ikääntymässä yhtäaikaisesti. Julkinen sektori on vaikeuksissa eikä rahoitus riitä jatkuvasti kasvaviin terveydenhuollon palveluihin. Rakenteita on uudistettava merkittävästi. Megatrendi on yhdistää sosiaalihuolto sekä perus- ja erikoissairaanhoito yhteen alueelliseen organisaatioon. Tämä on jo toteutettu mm. Pohjois-Irlannissa ja Italiassa kahdella noin 5 miljoonan asukkaan alueella. Kokeiluja on mm. Ruotsissa.
Dementia on tulevaisuudessa merkittävin yksittäinen ongelma. Alankomaissa on kehitetty muistisairaille vanhuksille 100 -300 asukkaan asuinympäristöjä.

Muuttuuko hoito- ja palvelukulttuuri?

Onko työkulttuuri kohdallaan? Mitä tapahtuu, jos hoitotyön annetaan keskittyä vain siihen tehtävään, mihin hoitajat itse haluavat ja oheispalvelut keskitetään omaksi toiminnalliseksi kokonaisuudekseen siten, että sihteeripalvelut, ilmoittautuminen, perushoitotyö, ruokahuolto, siivous irrotetaan omaksi hotellifunktioksi.

Onko tulevan sairaalan rakenne kolme rakennusta: hotelli- osastot, akuutti päivystävä sairaala teho-osastoineen ja päiväsairaala, jonne eri erikoisalakohtaiset poliklinikat sulautuvat yhdeksi toiminnalliseksi kokonaisuudeksi? Mitä ideoita tuli esille Lapin keskussairaalan suunnittelukilpailussa?
Mitä tapahtuu, jos ajatellaan asiaa loppukäyttäjän kannalta. Muuttuko kalustus? Muuttuko tilankäyttö?

Mitä näkyy horisontissa?

Tuleeko älypuhelimien terveystietojen sovellutukset vähentämään tulevaisuudessa potilaskäyntejä? Väheneekö vastaanottotilojen tarve sairaaloissa?
Miten "Enemmän vähemmällä" toteutuu, vastauksia antavat kokeneet sairaanhoitopiirien johtajat

The Nordic Welfare State 2030

Ekonomisti Stefan Fölster analysoi Pohjoismaisen hyvinvointivaltion tulevaisuutta

Keille?

Seminaari on tarkoitettu sote-alueen suunnitteluun osallistuville virkamiehille, suunnittelijoille, alan asiantuntijoille, aluehallinnon hallintovirkamiehille, kunnanjohtajille ja luottamusmiehille.

Tervetuloa!

Rekisteröinti ja konferenssin hinnat
Konferenssipaketti 10.-11.6.2015 |Early Bird hinnat 15.4.2015 asti:
530 euroa - Konferenssi, kahvit, lounas ja konferenssi-illallinen 10.6.
450 euroa - Konferenssi, kahvit, lounas (ei sisällä illallista)
1.4.alkaen hinnat 580/500 euroa. Kaikki hinnat alv 0 %.

Flipped Care

Integrated Social and Health Care

June 10-11, 2015 | Aalto University, Espoo

Sosiaali- ja terveyspalvelujen uudistaminen ikääntyvässä Euroopassa

Flipped Care – More with Less

The juxtaposition of continuing public service financial austerity and increasing demand, commonly known as megatrends, has generated a growing consensus across Europe on the need for substantial healthcare reform. This is now regarded as an imperative to regain the three-way balance between resource availability, forecast demand and quality of care – on a sustainable basis.

There is also general agreement between health professionals, planners and politicians about the nature of reform; a shift towards a whole systems integrated model of care linking primary and acute care and elements of social care. Furthermore evidence suggests that devolution towards regional level service delivery and change management will provide the necessary balance between local responsiveness and economies of scale in redesigning healthcare.

This model of reform implies significant changes in the way health systems work with consequent redistribution of resources, including the workforce, across the sectors involved in order to respond to the needs of new integrated models of care.

New thinking about pooling and sharing finance will also be necessary as will new ways of planning,
designing and investing in health and social infrastructure to facilitate reform.
It is now no longer a question of the nature of reform, direction is set, but *how to achieve the change necessary*. The conference aims to bring together planners, managers and health practitioners and professionals who are in the front line of change and have a track records and experience of changing healthcare.

The topics will include discussion about:

- EU wide perspectives on trends and the need for change
- The nature of reform and why it is necessary
- How different countries are implementing integrated care strategies
- Future planning; balancing resource and demand to achieve a sustainable health system
- The impact of new models of care on hospital and health facility design
- Futurescoping; a look forward to 2030

The conference is organised by the SOTERA Institute at Aalto University, European Health Property Network (EuHPN), Finnish Association for Health Care Managers (Sairaanhoitopiirien johtajat r.y.) and The Association of Finnish Local and Regional Authorities (Kuntaliitto).

Flipped Care
June 10-11, 2015 Espoo Finland

Wednesday June 10, 2015

8.00 **Registration & Coffee**

9.00 **Opening** Pirjo Sanaksenaho, Professor, Aalto University, Department of Architecture, Director of the Sotera Institute, Finland

9:10 **Greeting** Tuula Haatainen , Deputy Managing Director, The Association of Finnish Local and Regional Authorities

9.30

Reforms are needed everywhere

SESSION 1 - Chair Göran Honga, CEO, Vaasa Hospital District, Finland

New Megatrends in European Health Care

- **The growing Consensus on a Change of Direction for Healthcare in the EU;** Reasons, Benefits and Barriers. Barrie Dowdeswell, Research Director European Centre for Healthcare Assets and Architecture, UK
- **Evaluating the economic Impacts of integrated Care.** Ellen Nolte, European Observatory on Health Systems and Policies, LSE and LSHTM, London, UK

10.30 Coffee

10:50 **SESSION 2**

Country Approaches and Integration Strategies

- **Health System and Barriers to integrated Care in England.** Jonathan Erskine, Executive Director, European Health Property Network (EuHPN), UK
- **Integrated Regional Social and Health Services** - South Karelia. Pentti Itkonen CEO, EKSOTE, Finland
- **Transforming Health Care and Social Services in Northern Ireland.** John Cole, Consultant Client Advisor and Professor of Architecture, Queen's University Belfast, Northern Ireland

12.30 Lunch

13.00

How we are integrating?

SESSION 3 – Chair Barrie Dowdeswell, European Centre for Healthcare Assets and Architecture

Country Approaches and Integration Strategies

- **Integrated Care in Italy's Regions.** Simona Agger, Consultant, Project Coordinator, RES-Hospitals, Italy
- **Impact of Funding Reform to Care Delivery - early Experience in Holland**. Henny van Laarhoven, Advisor to the Board of Directors, Atrium-Orbis Group, Group, Netherlands
- **Public or Private? Role of Competition in achieving Results and given Goals in Reforms**. Juha Tuominen, Medical Director, Terveystalo, Finland

14.30 Coffee

14:50 - **SESSION 4**

Problems can be solved

- **Normal Life for demented Elderly: De Hogeweyk Model.** Yvonne van Amerongen, Quality & Innovation, Vivium Zorggroep Weesp, De Hogeweyk, the Netherlands
- **Swedish Integration Model - Hälsostaden Ängelholm.** Sergio Garay, Administrative Director, Hälsostaden Ängelholm, Sweden
- **Danish Approach to integrated Care: Introducing the triple Aim**. Jens Bejer Damgaard, Head of Section, Central Danish Region, Denmark

16:30 **Discussion**

19.30 Conference & Networking Dinner at Restaurant Katajanokan Casino, Helsinki

Thursday June 11 , 2015

How we plan for Future?

9.00 **SESSION 5** – Chair Pirjo Sanaksenaho, Aalto University

Approaches for Scarcity of Resources

- **New Working Culture**. Olli Wanne, Medical Director, Satakunta Healthcare District, Finland
- **New Service Culture.** Michael Rossing, Development Director, Kanta-Häme Hospital District, Finland
- **New Design Culture.** Teemu Kurkela, Adjunct Professor, Aalto University, Department of Architecture, Finland

10.30 Coffee

10:50 **SESSION 6**

New Design Innovations

- **Planning a Hospital for 2030's, Results of Architectural Competition of Centre Hospitalier Emile Mayrisch**. Daniel Cardao, Directeur administratif et financier, CHEM Centre Hospitalier Emile Mayrisch, Luxemburg
- **Six Cases of conceptual Hospital Design.** Maurits Algra, Architect, De Jong Gortemaker Algra Architects and Engineers, Netherlands
- **The open Architectural Competition for the Extension of Lapland Central Hospital.** Hennu Kjisik, Professor, Oulu University, Faculty of Architecture, Finland

12.10 Lunch

Planning Health and Social Services for 2030

13.00 **SESSION 7** - Jonathan Erskine, Executive Director, European Health Property Network (EuHPN)

What we see on the Horizon

- **Customer Value in Healthcare Architecture.** Jarmo Suominen, Professor, Aalto University School of Arts and Design
- **Will we see a Self-Care Revolution?** Madis Tiik, MD, Researcher, Tallinn University of Technology, Estonia
- **Comparing Costs across different Care Systems- case MetroHealth USA and Kanta-Häme Central Hospital, Finland.** Edward Sivak, M.D. MetroHealth Medical Center, Professor of Medicine, School of Medicine, Case Western Reserve University, Cleveland, Ohio & Iiris Riippa, Researcher, Aalto University School of Economics

14.30 Coffee

14:50 **SESSION 8**

New Models of Care need a practical Road Map

Closing Discussion Moderators

- Göran Honga , CEO, Vaasa Hospital District, Finland
- Jouko Isolauri , CEO, Kanta-Häme Hospital District, Finland
- Erkki Vauramo, Professor, Aalto University

15:50 **Concluding: The Nordic Welfare State in 2030**. Stefan Fölster, Director, Reforminstitutet, Adj. Professor, KTH Royal Institute of Technology, School of Industrial Engineering and Management, Sweden

16:30 End of the Seminar
